July 2012

Dear Sir/Madam,

We are pleased to send you our new leaflet and brochure.

GRIPS is a graduate university, funded by the Japanese government, that aims to educate future leaders in the policy arena. With the majority of our students being government officials from abroad, GRIPS is one of the most international institutes in Japan.

GRIPS always takes on new challenges. Recently, our new educational Initiatives, the Science, Technology and Innovation Policy program and the CAMPUS Asia Student Exchange Program: Northeast Asian Consortium for Policy Studies, have been adopted by the Ministry of Education, Culture, Sports, Science and Technology (MEXT). In addition to such programs, we focus on tailor-made training programs to meet the specific needs of the requesting organizations, especially from emerging countries in Asia. (Please see p. 22 in the brochure for more details)

As other initiatives, we have held the GRIPS Forum 16 times a year since 2008, wherein we invite leaders from various fields including government, academia and business to deliver lectures on current policy concerns. The Forum is open to the public and welcomes participants from outside the university. Videos of past Forums are available for viewing online. For more information, please see the GRIPS website.

We have enclosed admissions information for October 2013 for your reference, and for any of your staff who may be interested in pursuing a degree at GRIPS.
We hope you will keep an eye on GRIPS' continued progress.

Sincerely yours,

Tomoaki YOTSUYA
Director, Office of Public and External Affairs
National Graduate Institute for Policy Studies (GRIPS)
